

AVID is an elective course that incorporates academic and social skills and targets the least served students, who are in the “academic middle”. These students enroll in courses of high rigor, such as advanced placement classes, receiving support in the AVID elective class to be successful. Each year at Valley the vast majority of the Top Ten students with the highest grade point averages are AVID students! *To find out if AVID is right for you and apply, see Mr. Ortiz in counseling or Ms. Swan in room E-4.*
